THANK YOU FOR YOUR SUPPORT

Your financial support of the ACTS 2 Project will increase outreach to distressed African-American dementia caregivers and provide the funds needed to train more faith community workers to deliver the program.

WINTERFALL

A NIGHT OF GIVING

Benefiting the ACTS 2 Project

THURSDAY | NOVEMBER 18

6 - 10 PM

ESPOSITO GARDEN CENTER

WINTERFALL is a premier social event primed for the launch of the holiday season in Tallahassee. Led by a team of community volunteers, funds raised through WINTERFALL directly benefit individuals served by the African-American Alzheimer's Caregiver and Support 2 (ACTS 2) Project - an initiative of The Florida State University Foundation* and The Florida State University College of Medicine - across the Big Bend Region.

Held in the beautiful gardens at Esposito's, this winter wonderland setting features our Capital City's best food & wine, entertainment by Tobacco Rd Band, a live auction and much more! The holiday season and its offerings will bring the sights, sounds & smells that evoke memories of family, fun and the traditions we all love this time of year. You will not want to miss this festive affair!

Why WINTERFALL?

Alzheimer's disease is a rapidly growing national health problem. Nearly 6 million adults in the U.S. currently are living with the condition. This figure is expected to triple by 2050. Alzheimer's disproportionately affects minorities, especially African Americans. African-American older adults are approximately two times more likely than non-Hispanic White older adults to develop Alzheimer's disease and related dementias.

Through financial support of the ACTS 2 Project, you truly make a difference in helping to meet the needs of distressed family caregivers of older adults with dementia and provide the funds needed to train more faith community workers to deliver the program.

**The Florida State University Foundation is a 501c3 tax-exempt charitable organization.*
